Press Release

Brett Kovatch to deliver Keynote at Dallas SharePoint TechFest on March 2, 2010

Dallas, TX January 26, 2010:

Brett Kovatch is a Microsoft Certified Technology Specialist, specializing in Portals and Collaboration, and has an extensive background with Microsoft Portal and Platform technologies. Brett spent 11 years at Microsoft, including 5 years as a Technology Specialist and Solution Specialist in the Information Worker practice for Small and Mid-Market companies. After Microsoft, Brett was also a Consultant for a Microsoft Gold-Certified Partner which was honored as Portals and Collaboration “Partner of the Year” in 2007.

Brett is currently the Collaboration Systems Manager at Penson Financial Services, in Dallas, Texas. His team is focused on leveraging Portal and Collaboration technologies to enable Team Members, improve business processes, lower costs, and increase operational efficiency.

SharePoint TechFest is a one-day, comprehensive, conference designed to bring SharePoint thought leaders and enthusiast together to collaborate, network, and share their experiences. The conference will provide newcomers with an insight into SharePoint's virtually unlimited capabilities. Experienced users will learn new ways to utilize SharePoint in their business environments.

The day will begin with breakfast and a keynote speaker from the Microsoft product group. The keynote will be followed by two (2) morning break-out sessions. A prominent member of the SharePoint community will deliver the luncheon key-note and the afternoon will have three (3) additional break-out sessions. The conference will close with a Cocktail Reception in the Exhibit hall where attendees will have the opportunity to learn about many exciting products and services that focus on SharePoint.

You can find more information about this event by visiting the conference website: www.sharepointtechfest.com.
